Reliability Indicator:

Not established

End Application:

Used on asea contactor 301an20p on propulsion switchboard onboard 180 wlb coast guard vessels

Winding Quantity:

1 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single control

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
