Radio Frequency Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-320-7386

Overall Length:
0.907 inches
Turn Quantity:
5-1/2 single component single primary
Body Length:
0.750 inches
Body Width:
0.414 inches
Body Height:
0.414 inches
Inclosure Type:
Fully enclosed
Rating Method:
Winding turns single component single primary
Winding Conductor Size:
·····a····g ·····a····· ··
0.05082 inches american wire gage single component single primary
0.05082 inches american wire gage single component single primary
0.05082 inches american wire gage single component single primary Special Features:
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity:
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead Shelf Life:
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead Shelf Life: N/a
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead Shelf Life: N/a
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization:
0.05082 inches american wire gage single component single primary Special Features: Color green; shielded Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization: No
