Overall Length:

0.960 inches

Overall Height:

0.760 inches

Overall Width:

0.750 inches

End Application:

Sonar assembly, torpedo mk50

Special Features:

Excitation current shall not exceed 125 microamps at excitation voltage of 8.5 vrms and 1.5 khz with secondary winding open circuited, operating temperature minus 40 degrees c to plus 60 degrees c, 30 awg type s tin-coated wire leads iaw qq-w-343

Terminal Type And Quantity:

6 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
