**Inductance Rating:**

0.50 henry single component single winding

**Rating Method:**

Electrical single component single winding

**Winding Operating Current:**

3.0 amperes ac single component single winding

**Dc Resistance Rating In Ohms:**

1.400 single component single winding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
