Inductance Rating:

33.00 microhenries all components all primary

Winding Operating Current:

5.5 amperes ac all components all primary

Dc Resistance Rating In Ohms:

0.052 all components all primary

Special Features:

Op temp m55 to p125 degrees c; 2.2 watt dissipation at 25 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
