Reliability Indicator:

Not established

Inductance Rating:

6.00 millihenries single component single winding

Body Length:

1.062 inches

Body Width:

1.062 inches

Body Height:

1.062 inches

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Dc Resistance Rating In Ohms:

1.320 single component single winding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
