Reliability Indicator:

Not established

Inductance Rating:

48.00 microhenries single component 3rd winding

Winding Quantity:

3 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Dc Resistance Rating In Ohms:

525.000 single component 2nd winding

Terminal Type And Quantity:

8 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
