Reliability Indicator:

Not established

Frequency Rating:

80.0 kilohertz single component

Input-output Phase Relationship:

Single phase to single phase single component

Maximum Transformer Power Rating:

50.0 watts single component

Body Length:

10.000 inches

Body Width:

1.140 inches

Body Height:

0.955 inches

Inclosure Type:

Fully enclosed

Winding Operating Current:

1.82 amperes ac single component 1st secondary

Terminal Type And Quantity:

10 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
