Inductance Type:

Fixed

Inductance Rating:

500.00 microhenries single component single winding

Frequency Rating:

10.0 kilohertz single component

Rating Method:

Electrical single component single winding

Special Features:

Inductor, power

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
