Reliability Indicator:

Not established

Frequency Rating:

40.0 kilohertz single component

Input-output Phase Relationship:

Single phase to single phase single component

Body Length:

1.000 inches

Overall Diameter:

1.300 inches

Maximum Operating Temp:

130.0 degrees celsius

Inclosure Type:

Fully enclosed

Winding Operating Current:

50.0 milliamperes ac single component 3rd secondary

Winding Operating Voltage:

9.00 ac volts single component 3rd secondary

Terminal Type And Quantity:

16 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
