**Reliability Indicator:**

Not established

**Frequency Rating:**

40.0 kilohertz single component

**Input-output Phase Relationship:**

Single phase to single phase single component

**Body Length:**

1.000 inches

**Overall Diameter:**

1.300 inches

**Maximum Operating Temp:**

130.0 degrees celsius

**Inclosure Type:**

Fully enclosed

**Winding Operating Current:**

50.0 milliamperes ac single component 3rd secondary

**Winding Operating Voltage:**

9.00 ac volts single component 3rd secondary

**Terminal Type And Quantity:**

16 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
