**Reliability Indicator:**

Not established

**Frequency Rating:**

17.9 kilohertz single component

**Input-output Phase Relationship:**

Single phase to single phase single component

**Inclosure Type:**

Fully enclosed

**Winding Operating Current:**

175.0 milliamperes ac single component single secondary

**Terminal Type And Quantity:**

4 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
