Reliability Indicator:

Not established

Frequency Rating:

1.0 kilohertz single component

Inclosure Type:

Fully enclosed

Winding Operating Current:

200.0 milliamperes dc single component single secondary

Dc Resistance Rating In Ohms:

16.000 single component single secondary

Terminal Type And Quantity:

4 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
