**Reliability Indicator:**

Not established

**Frequency Rating:**

1.0 kilohertz single component

**Inclosure Type:**

Fully enclosed

**Winding Operating Current:**

200.0 milliamperes dc single component single secondary

**Dc Resistance Rating In Ohms:**

16.000 single component single secondary

**Terminal Type And Quantity:**

4 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
