Reliability Indicator:
Not established
Frequency Rating:
1.0 kilohertz single component
Inclosure Type:
Fully enclosed
Winding Operating Current:
200.0 milliamperes dc single component single secondary
Dc Resistance Rating In Ohms:
16.000 single component single secondary
Terminal Type And Quantity:
4 wire lead
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
