Reliability Indicator:

Established

End Application:

Onboard 420 ft wagb coast guard vessels

Rating Method:

Electrical all components all primary

Special Features:

Kva 33.6 continuous; freq - 60 hz; phase 3; heat dissipation 4340 btu/hr; primary volts 6600 wye; primary amps - 3 amps

Terminal Type And Quantity:

1 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
