Reliability Indicator:

Established

Input-output Phase Relationship:

Three phase to three phase all components

End Application:

5950-01-448-1542 transformer assembly onboard 420 ft wagb coast guard vessels

Special Features:

33.6 kva; primary voltage 6600 wye/3 amps; secondary voltage 3x224 open delta/50 amps

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
