Reliability Indicator:

Not established

End Application:

Panel, control e/i fscm 03950

Inclosure Type:

Fully enclosed

Winding Operating Current:

Amperes ac all components all winding

Winding Operating Voltage:

120.00 ac pounds per hour wet all components all primary input and 480.00 ac pounds per hour wet all components all primary input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
