**Reliability Indicator:**

Not established

**End Application:**

Panel, control e/i fscm 03950

**Inclosure Type:**

Fully enclosed

**Winding Operating Current:**

Amperes ac all components all winding

**Winding Operating Voltage:**

120.00 ac pounds per hour wet all components all primary input and 480.00 ac pounds per hour wet all components all primary input

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
