**Reliability Indicator:**

Not established

**Inductance Rating:**

50.00 microhenries all components single winding

**Winding Quantity:**

2 single component

**Inclosure Type:**

Fully enclosed

**Rating Method:**

Electrical all components single winding

**Winding Operating Current:**

660.0 milliamperes dc all components single winding

**Dc Resistance Rating In Ohms:**

0.167 all components single winding

**Terminal Type And Quantity:**

4 bonding pad

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
