**Reliability Indicator:**

Not established

**Overall Length:**

0.965 inches

**Frequency Rating:**

400.0 hertz single component

**Input-output Phase Relationship:**

Single phase to single phase single component

**Body Outside Diameter:**

1.220 inches

**End Application:**

Coast guard hu-25 aircraft

**Inclosure Type:**

Fully enclosed

**Winding Operating Current:**

13.00 amperes dc single component all primary

**Winding Operating Voltage:**

80.00 dc pounds per hour wet single component single primary

**Terminal Type And Quantity:**

10 solder stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
