Special Features:

Input voltage 120 volt; output voltage 0-120/140 volts; max. Current 10 amps; dim: 7 5/8 in. By 5 in. By 5 5/8 in.; in protective metal housing; with 3-conductor line cord and plug, matching output receptacle, pilot light, fuse, and output selector switch; for 50/60 hz operation; with 3-prong plug; compact; portable; connect to appropriate line voltage; rotate large control knob for reliable, stepless adjustment of output voltage from 0 to

Unit Of Issue Cube:

0.125 cubic feet

General Description:

Army mcn 5950-00-c07-6133/army ua 1214 mes animal pathology

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
