## NSN 5950-01-455-6160

Variable Electrical Transformer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-455-6160

## **Special Features:**

Input voltage 120 volt; output voltage 0-120/140 volts; max. Current 10 amps; dim: 7 5/8 in. By 5 in. By 5 5/8 in.; in protective metal housing; with 3-conductor line cord and plug, matching putput receptacle, pilot light, fuse, and output selector switch; for 50/60 hz

5, , , , , , , , , , , , , , , , , , ,
operation; with 3-prong plug; compact; portable; connect to appropriate line voltage; rotate large control knob for reliable, steples
adjustment of output voltage from 0 to
Unit Of Issue Cube:
0.125 cubic feet
General Description:
Army mcn 5950-00-c07-6133/army ua 1214 mes animal pathology

Shelf Life:

N/a

**Unit Of Measure:** 

**Demilitarization:** 

No
