Reliability Indicator:

Not established

End Application:

Joint stars rd e/i fscm 70210

Winding Quantity:

12 single component

Inclosure Type:

Fully enclosed

Special Features:

Dielectric withstanding voltage 350 volts at sea level

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
