Reliability Indicator:

Not established

Turn Quantity:

6 single component single winding

Winding Quantity:

1 single component

Inclosure Type:

Partially enclosed, double shell

Rating Method:

Winding turns single component single winding

Winding Conductor Size:

0.11440 inches american wire gage single component single winding

Special Features:

Name on drawing is inductor

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
