Reliability Indicator:

Not established

Turn Quantity:

10 single component single winding

Winding Quantity:

1 single component

Inclosure Type:

Open

Rating Method:

Winding turns single component single winding

Winding Conductor Size:

0.01594 inches american wire gage single component single winding

Special Features:

Name on drawing is inductor

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
