Reliability Indicator:

Not established

Turn Quantity:

11 2nd component 2nd winding

End Application:

751-3433-001

Winding Quantity:

1 all components

Inclosure Type:

Open

Rating Method:

Winding turns and winding turns 1st component single winding

Winding Conductor Size:

0.03196 inches american wire gage all components all winding

Special Features:

Name on drawing is inductor, resonator. Pitch (spacing) of coil turns differentiates dash numbers 1 through 4

Terminal Type And Quantity:

4 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
