Reliability Indicator:

Not established

Overall Length:

0.527 inches

Overall Height:

1.225 inches

Overall Width:

1.015 inches

Frequency Rating:

400.0 hertz single component

Input-output Phase Relationship:

Single phase to single phase single component

End Application:

Safcs e/i fscm 26512

Inclosure Type:

Fully enclosed

Winding Operating Current:

3.6 amperes ac single component single primary input

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
