Reliability Indicator:

Not established

Turn Quantity:

12 5th component single winding

End Application:

Awmds upgrade

Winding Quantity:

1 5th component

Inclosure Type:

Open

Rating Method:

Winding turns 5th component single winding

Features Provided:

Color coded lead

Winding Conductor Size:

0.01420 inches american wire gage 5th component single winding

Special Features:

Name on drawing is detector assembly, transformer

Terminal Type And Quantity:

10 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
