Reliability Indicator:
Not established
Overall Length:
6.500 inches
Overall Width:
5.630 inches
Frequency Rating:
50.0 hertz single component and 60.0 hertz single component
End Application:
Fire fighting e/i fscm 20722
Inclosure Type:
Fully enclosed
Winding Operating Current:
240.0 amperes ac single component single primary
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
