Reliability Indicator:

Not established

Overall Height:

2.500 inches

Frequency Rating:

60.0 hertz all components

End Application:

Ground detector e/i fscm 58475

Inclosure Type:

Fully enclosed

Winding Operating Voltage:

6.00 ac pounds per hour wet all components all secondary

Special Features:

Max operating temp minus 130 degrees centigrade; max ambient temp 85 degrees centigrade; dielectric 1500vrms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
