**Reliability Indicator:**

Not established

**Overall Height:**

2.500 inches

**Frequency Rating:**

60.0 hertz all components

**End Application:**

Ground detector e/i fscm 58475

**Inclosure Type:**

Fully enclosed

**Winding Operating Voltage:**

6.00 ac pounds per hour wet all components all secondary

**Special Features:**

Max operating temp minus 130 degrees centigrade; max ambient temp 85 degrees centigrade; dielectric 1500vrms

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
