Reliability Indicator:

Not established

Overall Length:

1.000 inches

Turn Quantity:

12 single component single winding

Overall Diameter:

0.630 inches

End Application:

1430-01-418-4396

Winding Quantity:

12 all components

Inclosure Type:

Fully enclosed

Rating Method:

Winding turns single component single winding

Winding Conductor Size:

0.05082 inches american wire gage single component single winding

Special Features:

Operating voltage: sea level to 8000 ft

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
