**Reliability Indicator:**

Not established

**Overall Length:**

16.000 inches

**Overall Height:**

9.875 inches

**Overall Width:**

10.375 inches

**Frequency Rating:**

60.0 hertz single component

**Input-output Phase Relationship:**

Single phase to single phase single component

**End Application:**

Misc parts li waters class tags-45

**Inclosure Type:**

Fully enclosed

**Winding Operating Voltage:**

240.00 ac pounds per hour dry single component single primary and 480.00 ac pounds per hour with retaining chain single component single primary

**Special Features:**

Dry type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
