Reliability Indicator:

Not established

Overall Length:

16.000 inches

Overall Height:

9.875 inches

Overall Width:

10.375 inches

Frequency Rating:

60.0 hertz single component

Input-output Phase Relationship:

Single phase to single phase single component

End Application:

Misc parts li waters class tags-45

Inclosure Type:

Fully enclosed

Winding Operating Voltage:

240.00 ac pounds per hour dry single component single primary and 480.00 ac pounds per hour with retaining chain single component single primary

Special Features:

Dry type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
