Reliability Indicator:

Not established

Frequency Rating:

50.0 kilohertz single component

Input-output Phase Relationship:

Single phase to single phase single component

Body Length:

1.990 inches

Body Width:

1.330 inches

Body Height:

2.000 inches

End Application:

E/i ssm-xmitter group

Inclosure Type:

Fully enclosed

Special Features:

Next higher assembly dwg 00132370, used on an/tpn-22

Terminal Type And Quantity:

2 turret and 4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
