Reliability Indicator:

Not established

Overall Length:

2.880 inches

Frequency Rating:

60.0 hertz single component

Input-output Phase Relationship:

Single phase to single phase single component

Body Width:

1.530 inches

Body Height:

1.000 inches

End Application:

E/I6-15-501-4620

Terminal Type And Quantity:

3 wire lead and 1 feed thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
