Reliability Indicator:

Not established

Overall Length:

4.8 millimeters

Overall Height:

3.5 millimeters

Overall Width:

3.4 millimeters

Inductance Rating:

4.23 microhenries all components all primary and 5.17 microhenries all components all primary

End Application:

6625-01-451-8727

Special Features:

Fixed inductor and chip surface mount-lcr tested; test frequency 1 mhz; dc current rating (idc) 220 ma max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
