**Reliability Indicator:**

Not established

**Overall Length:**

19.630 inches

**Overall Height:**

11.500 inches

**Overall Width:**

11.680 inches

**Frequency Rating:**

47.0 hertz single component and 63.0 hertz single component

**Input-output Phase Relationship:**

Single phase to single phase single component

**End Application:**

Aircraft, eagle f-15

**Inclosure Type:**

Partially enclosed

**Winding Operating Voltage:**

96.00 ac pounds per hour dry single component single primary and 132.00 ac pounds per hour with retaining chain single component single primary

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
