Reliability Indicator:

Not established

Inductance Rating:

550.00 microhenries single component single winding

End Application:

E/i 1520-01-355-8250 helicopter, attack

Winding Quantity:

2 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single primary

Terminal Type And Quantity:

2 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
