Reliability Indicator:
Not established
End Application:
Navy equipment; arleigh burke class ddg
Winding Quantity:
1 single component
Inclosure Type:
Fully enclosed
Rating Method:
Electrical single component single winding
Criticality Code Justification:
Feat
Special Features:
Special Features: Weapon system essential
•
Weapon system essential
Weapon system essential Terminal Type And Quantity:
Weapon system essential Terminal Type And Quantity: 2 wire lead
Weapon system essential Terminal Type And Quantity: 2 wire lead Shelf Life:
Weapon system essential Terminal Type And Quantity: 2 wire lead Shelf Life: N/a
Weapon system essential Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
Weapon system essential Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
Weapon system essential Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization:
Weapon system essential Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization: No
