Reliability Indicator:

Not established

Input-output Phase Relationship:

Single phase to single phase single component

End Application:

Power conditioner

Inclosure Type:

Open

Special Features:

16 turns/windings on primary 1 & 2 and secondary; next assembly 900-23357 used on 900-23340

Terminal Type And Quantity:

4 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
