Reliability Indicator:

Not established

Overall Length:

2.250 inches

Overall Height:

1.340 inches

Overall Width:

2.325 inches

Inductance Rating:

5.00 millihenries single component single winding

End Application:

T-827k/urt, exciter

Winding Quantity:

2 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Special Features:

6 inch long, 18 cage hook up wire leads

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
