Reliability Indicator:

Not established

Inductance Rating:

47.00 microhenries single component single winding

End Application:

Kg-75, crypto, next assembly On634750, used on fastlane

Winding Quantity:

1 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Dc Resistance Rating In Ohms:

12.000 single component single primary

Special Features:

Mfg name: inductor, dc/dc converter

Terminal Type And Quantity:

2 bonding pad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
