Reliability Indicator:

Not established

Overall Length:

10.0 millimeters

Turn Quantity:

3 single component single winding

Overall Diameter:

3.0 millimeters

End Application:

Nsn: 6625-01-458-5920, amm20002 (21066) meter, modulation; wsd: elect test equip - gpete

Winding Quantity:

1 single component

Inclosure Type:

Open

Rating Method:

Winding turns single component single winding

Winding Conductor Size:

0.03600 inches standard wire gage single component single winding

Special Features:

Material: tin copper wire

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
