Reliability Indicator:

Not established

Overall Length:

0.850 inches

Mounting Hole Diameter:

0.140 inches single group

Input-output Phase Relationship:

Single phase to single phase single component

Body Length:

0.600 inches

Body Outside Diameter:

0.820 inches

Maximum Operating Temp:

125.0 degrees celsius

End Application:

Next assembly 4240358, 4240359 and 4240363 used on alq-99

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

1 single group

Mounting Method:

Unthreaded hole single group

Special Features:

Dc resistance min 0.203, maximum 0.275 ohms from lead 1 to 2, 3 to 4 and 5 to 6; inductance from lead 1 to 2, min 1.00, maximum 2.00 mh

Terminal Type And Quantity:

6 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
