**End Application:**

125 ton chiller unit iro class

**Special Features:**

Input current 250aac; output current 4-20ma; current range 0-250aac; maximum continuously current 300aac; maximum overload current 700aac; rated insulation voltage, input-output 1000 vac rms; overvoltage category iv; pollution degree 3; dielectric strength, dielectric voltage 6kvac rms; rated impulse withstand volt 12 kv; output current 4-20madc; power supply, loop voltage 10-40vdc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
