Reliability Indicator:

Not established

Turn Quantity:

152 single component 2nd winding

End Application:

Valve sol 2.50ips 150psi 115vac flge brz

Winding Quantity:

2 single component

Rating Method:

Winding turns all components all winding

Special Features:

Coil no. 3175400 upper & lower section wound to form one unit; wire size: .036 upper section & .051 lower section: total resistance: 1.79 ohms @ 25 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
