Reliability Indicator:

Not established

Overall Length:

6.438 inches

Overall Height:

5.688 inches

Overall Width:

6.750 inches

End Application:

Controller, ac 190258; wsd: nimitz class cvn

Inclosure Type:

Fully enclosed

Winding Operating Current:

8.33 amperes ac single component single secondary

Winding Operating Voltage:

440.00 ac volts single component single primary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
