Reliability Indicator:

Not established

Overall Length:

28.940 inches

Overall Height:

48.000 inches

Overall Width:

38.500 inches

Frequency Rating:

60.0 hertz single component

Input-output Phase Relationship:

Three phase to single phase single component

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

1 single group

Special Features:

Kva225 input voltage 480 volts delta, output voltage 480 y/ 277 volts, 6taps 2 above and 4 below rated primaryvolts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
